COURSEWORK

UNDERGRADUATE

- Data Structures and Algorithms
- Operating Systems
- Database Management System
- Object Oriented Programming
- Computer Network

SKILLS

DATABASE

- SQL
- NOSQL

PROGRAMMING

- Python
- C++
- C

TECH AND FRAMEWORK

- Java Script
- React.js
- React native
- Firebase
- Next.js

TOOLS

- Visual Studio Code
- Github

LANGUAGES

English • Hindi
Urdu

EXPERIENCE

KYLO APPS | FRONTEND INTERN

APRIL 2022 – MAY 2022

- Developed three advanced applications in ed-tech and travel, employing React.js for responsive UIs and Figma for meticulous design.
- Architected a dynamic front-end framework, optimizing for cross-device compatibility and delivering seamless user experiences.
- Engineered robust APIs, enhancing applications' functionality with precision in data flow and adherence to RESTful principles.
- Tech stack: React.js, Figma.

CONTANGO | ANDROID DEVELOPER

NOV 2021 – FEB 2022

- [Link](#)
- Developed a React Native application, introducing a cross-platform multiplayer game and setting new engagement standards.
- Implemented advanced state management in React Native for seamless data flow and optimal responsiveness.
- Optimized performance and UI responsiveness, leveraging React Native's capabilities.
- Tech Stack: React-native , Expo-go, Firebase.

CREED ESSENTIALS | SOFTWARE DEVELOPER

JUNE 2021 – AUG 2021

- [Link](#)
- Managed key front-end functionalities for both the website and app, overseeing intricate routing mechanisms for the website.
- Built smooth UI components from prototypes for the android app and worked on database to support up to 50000 monthly active users.
- Tech Stack: React.js, Figma, React-native, Firebase.

PROJECTS

SCARED CHANK PRODUCTION | JULY 2023- AUG 2023

- [Link](#)
- Developed captivating front-end interfaces for Scarred Chank Productions, a premier film distribution company.
- Integrated real-time APIs for dynamic film data, compelling news updates, and prominent author profiles.
- Ensured seamless user experiences with responsive design and cross-browser compatibility.
- Tech Stack: Next.js.

COVID INFO PROJECT | MAY 2021- JUNE 2021

- [Link](#)
- Made a web application that serves as a repository of pan-India updated covid 19 resources and information, with clearly demarcated sections for each resource like oxygen, ambulance etc .
- Tech Stack:React.js, Firebase, Figma.
